

# Leela Saud

Solution Developer

## Profile

Highly motivated and dedicated data engineering final year computer science student with a strong background in data management and analysis. Skilled in various aspects of data engineering, including data integration, data modeling, and data warehousing. Proficient in programming languages such as Python, MSSQL and SQL database management systems. Seeking opportunities to apply and further enhance my skills in a dynamic and data-driven environment.

## PROFESSIONAL EXPERIENCE

- Solution Developer**  
Inspire Nepal | Uvic Program  
Inspire Nepal is a four-month program organized by the University of Victoria, Canada. We create a software called BloodSync from scratch to deployment for Chaurjahari Hospital in Rukum. The goal is to tackle the issue of blood scarcity in the region. For the user interface Reactjs and for backend .Net is used.

- Engineering Intern**  
GrowByData  
During my internship, I created an online shopping website using PHP. I got to explore cool tools like Google Analytics, API testing, Postman, and MYSQL. Overall, this experience gave me a solid understanding of both backend and frontend.

## CONTACT

- 9865874157
- Maitidevi, Kathmandu
- leelasaud79@gmail.com
- <https://github.com/LeelaSaud79>
- <https://www.linkedin.com/in/leela-saud-1010a924a/>

## EDUCATION

- Bachelors (BSC.CSIT)**  
Padmakanya Multiple Campus  
Bagbazar, Kathmandu  
2019-2024
- High School**  
NAST College  
Dhangadhi, Kailali  
2017-2019

## SKILLS

- MSSQL | SQL
- Scikit learn
- Visualization
- Git & GitHub
- Problem Solving
- English
- Azure
- TensorFlow
- Tableau
- Leadership
- Communication
- Nepali
